PROFILE

Third-year Software Engineering student at Addis Ababa Science and Technology University with hands-on experience developing software projects across web applications, AI-enabled financial technology, and natural-language reminders. Interested in software engineering and applied AI/ML, and focused on building practical, user-oriented solutions while continuously strengthening technical skills.

EDUCATION

BSc in Software Engineering — Addis Ababa Science and Technology University (AASTU)

2023 – Present

TECHNICAL SKILLS

Languages	Python, C++, Java, JavaScript, HTML, CSS
Backend & Frameworks	FastAPI, Next.js
Data & Tools	SQLite, PostgreSQL, Supabase, Git, GitHub, VS Code
Areas	AI/ML fundamentals, web development, software design, database development

SELECTED PROJECTS

CFO Pulse AI | AI-powered financial intelligence platform | 2026

Developing a conversational financial assistant aimed at helping small and medium enterprises with financial questions and insights. Selected for the second round of the EAII startup competition.

Technologies: Python, AI/ML, HTML, Supabase

Memo | Natural-language reminder and memory application | 2026

Building an application that interprets natural-language requests to create reminders and helps users save and retrieve notes.

Technologies: Python, FastAPI, Next.js, SQLite

Blood Bank Management System | 2025

Built a project focused on managing blood inventory and donor information, with a database-backed application workflow.

Technologies: C++, HTML, CSS, PostgreSQL

CERTIFICATIONS

- AI and Machine Learning certification
- Cisco Networking certification

ADDITIONAL

Portfolio: github.com/Aash77-b/portfolio | Interested in software development, applied AI/ML, and collaborative engineering projects.
